

Touch Of Glass, Strength Of Steel
The PTMT Revolution

OUR JOURNEY OF EXCELLENCE

Born from a vision to redefine modern plumbing, we have evolved into a distinguished PTMT known for uncompromising quality and refined craftsmanship. Every product reflects precision engineering, premium-grade materials, and meticulous quality control, ensuring durability, elegance, and lasting performance.

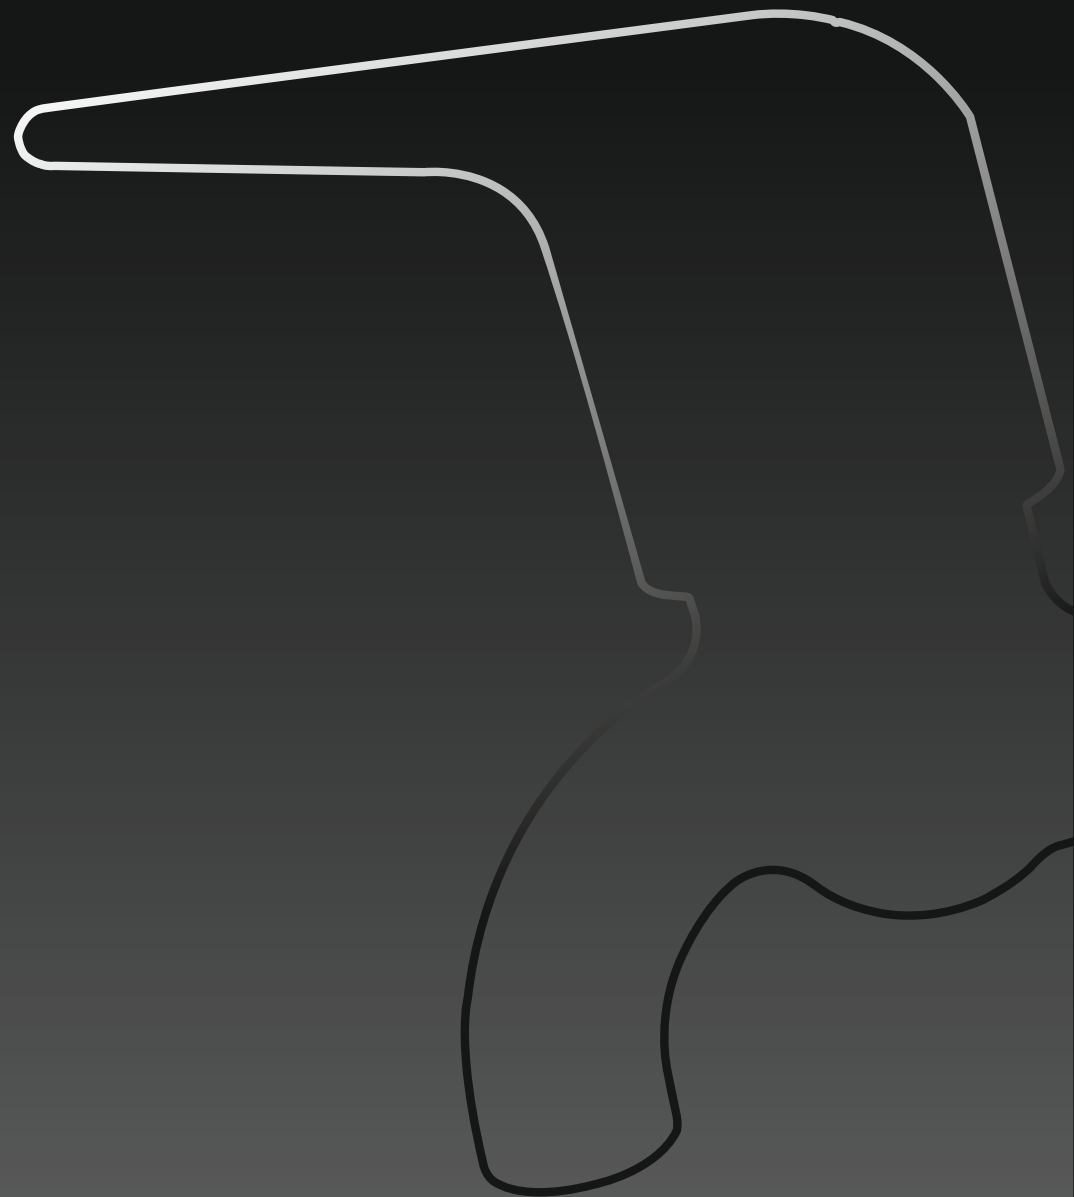

Guided by innovation and driven by excellence, we continue to set higher standards in design, reliability, and customer trust, delivering perfection in every detail.

OUR LEGACY OF QUALITY

Quality is the foundation of everything we manufacture. From the selection of superior-grade raw materials to precision-controlled injection molding, every process is engineered to deliver unmatched strength and consistency.

Each PTMT product undergoes stringent quality inspections, including accurate high-pressure leakage testing to ensure zero leakage performance, structural integrity, and long-term durability under demanding water conditions.

Our commitment to precision, reliability, and flawless finishing defines our legacy — delivering products that consistently meet the highest standards of performance and trust.

FAUCET COLLECTION

Represents a new standard in design, durability, and performance. Engineered with high-quality materials and modern technology, these faucets offer smooth operation and long-lasting reliability. The collection blends elegant aesthetics with practical functionality, making it perfect for today's modern bathrooms. With rust-proof quality and easy maintenance, every faucet is designed for everyday comfort and lasting style.

OFFERINGS

We offer a complete range of modern faucets that combine elegant design with superior performance. Built with high-quality materials, our faucets ensure smooth operation, durability, and long-term reliability. Designed to suit both contemporary and luxury spaces.

PRODUCT FEATURES

RUST PROOF

Made from PTMT for permanent rust protection.

HEAT RESISTANT

Stays strong, even at high temperatures.

HIGH STRENGTH

Crafted for strength that lasts for years.

HIGH PRESSURE COMPATIBLE

Built to handle high pressure with smooth, stable flow.

UV PROTECTED

Protects against UV rays to maintain finish and durability.

LONG LASTING FINISH

Engineered to keep its look and quality over time.

LEAK PROOF

Leak-proof design for worry-free, reliable performance.

EASY OPERATION

Offers light, smooth, and effortless operation for maximum comfort in everyday use.

OUR ADVANCED FLOW SYSTEM

A wide-angle 17mm ceramic disc ensures enhanced comfort and delivers flawless, smooth operation.

It performs efficiently even at high temperatures ranging from 85°C to 90°C and under varying pressure conditions.
